Goztow wrote on Sat, 20 February 2010 03:47How exactly does RG not work for you?
I'm sure I could download renguard and it would work, i'm just asking myself what is the point.. does it stop ROF, or RGH? or Velocity?

From what I hear all it does is make your game crash at random times, I could download renguard.. i just would rather not.
