Subject: Renegade obviously all jacked up.
Posted by srgmjrten on Wed, 03 Mar 2010 02:14:23 GMT

All right... when I try to log in to Westwood online it just gives me the same crap message, which I have attached to this thread.

And RenGuard gives me "Error: 00000005".

I am installing Renegade using the Decades pack.
I run Vista.

Thank you.
