The permanently unemployed have no business deciding the direction a country is heading as they're not contributing in any shape or form. A positive side-effect would be that politicians will stop playing the "the unemployed are starving; minimum wages are too low" card to cash in on 1-issue voters.

Where is your room to talk? You are from Germany. Anyway British always owed the US so I am sure we are glad for them to crash and burn in hell.

What the fuck are you on about? Moron.
