The government and the media are the main problems with America.

The media isn't allowed to air things that will invoke a negative or panicking reaction. It's like the people don't have a right to know the correct information about what's going on in the world.

The line between can and cannot know information has become blurred over the years and people have become selfish arrogant jerks. If there is even the slightest bit of information that it is possible to get offended at - EVEN IF THEY AREN'T OFFENDED THEMSELVES - they will get pissed off and try to sue someone for it.

Everyone needs to grow up.

There needs to be like this big guy standing on every corner of every street that slaps the back of the head of every moron in the country that does something retarded.

"OMG THOSE SQUIRRELS ARE HAVING SEX! I'M SUING THE TOWN FOR EXPOSING PORNOGRAPHY TO MY CHILDREN WHO AREN'T EVEN AT HOME RIGHT NOW!"

But you know what? That isn't even the biggest problem. The biggest problem is the fact that these people can actually get away with suing for retarded reasons and actually WIN! Of course people will keep doing it... "If some lady can sue a park for tripping over an acorn and breaking her leg and win, then I can totally do something like that too!"
