umm no one will host for your clan for free.. you gonna have to show them money

good luck finding 15v15 servers.. thats 30 players.. a fast computer + bandwidth.. try sum hosting companys

but its gonna cost you big bucks

i tried with a few friends.. <http://www.jolt.co.uk> use linux machines.. and using them you can only host on GSA..

to host on WOL

you want a windows machine you have to pay even MORE money

so we gave up
