Zeratul wrote on Fri, 12 March 2010 20:50 Since I've installed RenGuard my Anti-Virus is blocking it. this is the message displayed. I have put it on the exception list but it still does not let it run. downloaded RenGuard from <http://www.renguard.com/>

Edit: Just thought of this but it started messing up a few days ago
I can't really think of anything else to do aside from putting it on the exception list

I've been getting the same error from nod32, started happening about the same time that renforums got infected. It's blocked every time. So I don't really care about it, lol.
