Exactly, most. And there is a great difference in the time factor. But hey I don't care. Most Dutch people my age already joke about the subject. Therefore, black need to get over it as well.

But yeah, because I disagree with the fact that it is ok for a black man to say mean mean black person but not for a white man obviously makes me a racist. Even though I would never use the word, simply because it's a retarded word.

And exactly how many races have been subject to slavery? A lot more then just the blacks.
