People who describe meat as "fall off the bone" and people who describe something hot as piping. "It's piping hot!"

I'll give you 'piping hot' but how is one supposed to describe meat that's so tender that it falls off the bone without saying "fall off the bone?"

Context.

"That meat was fall off the bone!" sounds utterly retarded.

Oh, I've never heard it used that way. In that case, the user deserves a prompt smack.
