This dude who sent me PM's in IRC while I was sleeping...

[10:53] [Unk|Ren]: look...I know about the hacks you made

[10:53] [Unk|Ren]: I found the site..

[10:53] [Unk|Ren]: I am very disappointed

insert paste from the cheat site

[10:53] [Unk|Ren]: I have the link and everything...

[10:54] [Unk|Ren]: I'm not going to tell anyone..or use the hacks but I just thought I would let you know.....very disappointed..If only everyone new about this...they wouldn't look up to you anymore...

[10:58] [Unk|Ren]: I used to love playing in your server..because I thought you were a person who didn't support that kind of thing in your server and then I found out that you made those hacks.....>:0 Good Day

Listen... I did NOT compile this EXE! Do you want irrefutable, undeniable PROOF? Run the EXE, do you see the big slide that insults myself and Blazer? Did you also find my phone number and cell phone number? If I made this program, WHY OH WHY would I have put this sort of thing in it?

I mean... duh. Really.
