So are you open to additions from people?, I am just a Voice in FoDSvr02 and also in-game mod, but I have a list of different people who have used hacks/cheats and pictures of people who just generally break the rules and/or take advantage when BR is down or when there's a vehicle lying around.

I have only got 5 or so people at the moment but I am sure as the chat becomes more and more public there will be more cheaters found.
