I'm curious though: why start a new community and not join an existing one?

Well we'll see on that. I did this because I took the first offer, they had what I needed for the players. The other admins wanted to do it this way with server stuff, I didn't need all that. They know it.

Don't think of it as "breaking apart Atomix," think of it as moving the players and mixing them with clanwars.cc/sniper people. It's actually bigger than the "Atomix" was, and it's only the beginning.

Look at my signature my man. You're more than welcome. It seems like all the "misfits" who've ever been a part of Ax, are banding together.
