The part about the image being huge? I guess relative to desktop wallpapers or PLECOS or other high-resolution images, it isn't that big, but it does take up a majority of the signature, so I guess I should have quantified my statement better.

Or the part about the lipstick? It's true. It's much too dark. If she wasn't quite as pale, or if she was a brunet, she could pull that off, but as it is I would have recommended something in a lighter pink.

EDIT: In other news, why hasn't Archerfag been banned yet? >:[
