smwScottl still think it looks cool, although now that I know there's RPG elements I'm a little turned off. I'll wait for a demo, and if I like it buy it. sign up at <http://beta.homelan.com/public/savagesignup.php> the chance to get in is big but be sure you fill in everything or you will get mad.

The sign up questions are funny this is one off them:

Quote:Are you a professional game developer?

- Yes, but I am not here to spy.
 - Yes, and I am here to spy.
 - No, but I am lying to cover up my spying.
 - No
