I think San Andreas is the greatest GTA simply because I have gone back to it more than any of the games I played. I loved the huge map and the great customization.

IV could have been the best, but they took a lot out in favor of realism, which really isn't what GTA was ever about in the first place. They really didn't add much to TLAD or BoGT either. Not to mention they only let you have ONE safe house in BoGT. TLAD was weak story-wise, and if you have BoTG, I see no reason to play TLAD.
