Xtrm2MattIceSword7Last night me and 7 or 8 other people got the ip of the maker of this final renegade shit and nuked the crap out of him...he wont be gettin online for a couple of days

Takes you 7-8 people to try and take someone offline? I can take all 8 of you out on my own.

And there is to be NO DDoS talks or anything on this Forum.

Now go back to being the lamer you are.

[P.s, The.. "owner" uses a VPN connection for mostly anything, so you DONT have his IP.]

KThx

teach me please :twisted:
