You know guys I dont troll these forums, most of you troll way more than I do, I was asking a real question since I got confused on a few things, so please keep your comments to your self,

and R315r4z0r im read it when i get home

so what I asked got answered

the fact they made the 3 movies 4,5,6 and made the movies to explain how they led to them (1,2,3) is kinda dumb since the 3 one is only one iv seen so it was a little confusing, im find a web site to watch them for free soon in order

so im ask this

if they dont have them in order for example star wars part 1 part 2 etc what are the titles in chronicle order
