is it anything like nfl madden or nba 2k10

It's more like a mix between Chess and Piano.

Did you call your local gamestop or did you try online? And Gamestop isn't the only retailer to offer a beta key with preorders. Most reputable sellers I've come across are doing something similar. I've heard people trying Amazon.com, but a good bet would be www.teamliquid.net, a StarCraft community that recently got the okay from Blizzard to sell preorders of SC2. You can find the appropriate thread on their website here.
