I'm not talking about the CP2 end button command....it's clearly you who are the one failing to read. I am, and obviously have been talking about the c4 feature on the hud. Which my question is still unanswered about, I'm not quoting you out of context Goztow, I'm just not quoting the parts that either don't have to do with my reply, I agree with, or are irrelevant in my opinion. Don't make it seem like I'm attacking you when I'm clearly just asking a few questions that seem to be extremely hard for you to answer...
