That is, countries like Britain should be saying: "This is OUR country, integrate in OUR society. We're already providing you a place to live, don't start dictating how we should run it. If this country doesn't live the way you want to live, live elsewhere."

Fucking exactly, being a passive aggressive, immature cock isn't going to solve anything. The muslims causing the commotion that they are won't get why the burqa would be banned. I mean shit, this is a group of people that are forcefully living in a land they supposedly hate- obviously logic does not apply to this group of muslims who can't attempt to adapt to their surroundings.

So instead, you have to be OPEN and DIRECT about it- just say no to the bullshit, and if they're not going to be polite, don't be polite either. If they want to start ANY kind of terrorism campaigns in Europe, then I can easily see a nice fat boot from Europe aimed in the direction of their rear ends.
