i don't find that at all attractive

they get put up all over tv and i'm thinking Too bad none of these girls are attractive

it's like they're going to try to force it down my throat until i cave

it's not happening; they're disgusting

pretty much yeah

99% of models are just ugh

almost every single woman I've met I was more attracted to than a model (and I've known some ugly women)

most models probably have shitty personalities too
