i just started playing renegade again about 3 weeks ago (it had probably been about 2-3 years since i had played before that) and i noticed that a lot of servers that i used to play are completely gone. the reason i am posting this is because i play CS:S a lot and for some reason, my router filters out many servers (i will only get about 30-40 cs\_office servers but when i play at my friends house, he gets well over 100 servers). i wasnt sure if this was also the case for renegade.

the only servers that i get that ever have ppl playing in them are jelly and n00bstories. i love those servers, but ive been looking for a sniping server so i can specifically work on my sniping skills and was wondering if anyone knew of any good ones whether it be through gamespy or westwood.

thanks
