Look at my epeen. It's so much bigger; compared to yours. Ask George or Cabal if you don't believe me.

Fair enough to state why you can't understand him coming back to the forums; but to speak on behalf of everyone here and go off on some tangent about your aunt, the criticism of his skins and how good yours are is just fucking stupid.

I don't know who I dislike more. The guy who made and released advantage skins; or the guy who derives self esteem out of criticizing others and self promotion. meanwhile, you don't contribute shit and have a big mouth
