It's not low. It's smart. It's a solution that doesn't dramatically increase the amount of moderation on the forums while still doing a lot to clean out the trolls and dicktrees who suddenly don't have a mask to hide behind. It also promotes people being responsible for their words and actions, which would be a nice change to the internet.

Lastly, it's the official battle.net forums. Big fucking deal. No worthwhile exchanges of information take place there anyway.
