sounds like you misunderstood that post

i.e. whenever you come across some super-evangelical homophobic christian you know there's a 75% chance they'll be caught with a rent boy sooner or later?

I was sort of comparing Haggard's homophobic sermons to that of Azazel's crusade against cheaters. They both were caught doing the thing they preached against.

I am a bit disappointed by Azazel. I trusted him so much and thought he was fair and genuine.
