Hi

I just found this topic and thought I would clear some things up
I frapsed this on Friday.
It was Azazel because he said it himself and his IP was matched.
It wasn't in base (you can see it because there is no laserfence at the place it should be(if it were in his base))
Also he wasn't Admin at TMX anymore for a few weeks, only temp mod.
He has been banned from TMX.
I've been a half mod at TMX for about 1 month now.
And when I frapsed I was using this nickname: "[-HOH-]Ysselstey" because I'm in HOH-clan.
