There is a reason why the infantry beta was what it was, but I really don't want to blame anyone specific.

Let's just say it was because someone thought it was a good idea to take it upon himself to give release date to the community without consenting the rest of the development team first.

After that same person said there would be a release date in December 2005, the team leader was put into a position where they had to show something. Thus the infantry beta was born.
