a000clown wrote on Tue, 27 July 2010 14:19Running in compatibility mode should fix your problem.
That doesnt work.
I now realize i should have posted a screenshot of the error message.

The version of this file is not compatible with the version of Windows you're running. Check your computer's system information to see whether you need an x86 (32-bit) or x64 (64-bit) version of the program, and then contact the software publisher.
