Subject: Re: renguard- not connecting
Posted by AaeRohn on Wed, 11 Aug 2010 19:41:04 GMT

I am getting the same problem, but I have done nothing... I tried re-installing, it does nothing to help the problem... I check, the firewall is off, and both executables are in exceptions and checked...

It still doesnt connect to any servers so I can't even start the game from the renguard executable.
