- 1) 2 totally different sides
- 2) an AOW mode (destroy each other's base for points with infantry/vehicles)

It doesn't even need to have a story line that makes sense... If a game with those 2 simple requirements was ever released, I'd buy 3 copies of it immediately.  
Pretty much the same here. I'd love a game that has tanks and such with base destruction, decent infantry battles, but isn't over the top with realism.

I've given up any hope of EA releasing such a thing, so...
