halo2pac wrote on Sun, 17 October 2010 03:45Bah my best ideas are already released. And my other ideas I really don't want open source. And then my super ideas are in progress and would take too long

If the source could be used for malicious purposes, then there is a valid reason to not post the code.

I've now resized the photo's so it doesn't make your head explode to see them.
