this is what people who are really angry during forum arguments always say... i suppose it's easier than facing up to the fact that you're freaking out just because you were wrong over the internet.

Quote:People say talking to you is like talking to a brick wall.
always, and i mean always, IMMEDIATELY after they lose an argument.

Quote:You REFUSE to accept anyone elses opinion if it doesn't match you own.
like i said before, whatever makes you feel better about the fact you were completely wrong.

Quote:Lets think about it.. If it was just me cos im renemad cos I lost an arguement why is it everyone else comes to the same conclusion?
because you're not the only person who freaks out when they lose an internet argument, and you're not the only person who thinks that if someone defeated them there must be something wrong with them rather than "maybe i was wrong". it's exactly the same as saying someone cheated because they beat you in the game... the only difference is, when some n00b does that, everyone can see what an idiot they're being.

Quote:Have you or have you not said that you're better then everyone else at Ren?
in response to teh question "who are the best players around nowadays", i've given my honest response. would you prefer false modesty? i repudiated that already.

Quote:At running a cw ladder?
you aren't seriously disputing the fact i have a better track record of running a renegade clan ladder than anybody else? to say that is just to state the facts of the matter.

Quote:At leading a team?
again, i think there's a strong case to be made there... look at the renforums community team, most of whom had never even played comm matches before at all. under my strategic leadership, they won the RGCT.

Quote:etcccc That kinda gives off the impression that you're god.
like i said, you can't dispute what i actually say, so you make up something i didn't say and laugh at that instead. it just shows how desperate and dishonest you are.

Quote:Be honest now, it was kinda longer then 10secs, ok fine it wasn't exactly 10mins
you say it was 10 mins and you're telling me to be honest? wow

Quote:Come on now, you wasn't 'smashing' tanks up at all. You whored on the strip for ages. I was the one who was smashing up tanks cos I was the one covering you with an orca. A higher score doesn't always mean better player, you generated a lot of points by whoring of the buildings, no? (Yeah you killed a few buildings, congrats)

it's interesting that you mention "you killed a few buildings, congrats" as if this is an afterthought. i killed the hand single-handedly in the beginning of the game - no saks, no ravs, and a limited number of techs. i killed the ob single-handedly late on, meaning we could swarm in and finish the job. do you think these are trivial matters if we're talking about a player's effect on the game? if so, just come out with it.

on to "whored on teh airstrip". tell me, what's bad about hammering an enemy building, forcing the enemy to repair and deal with your tank? are you one of these dumbasses who doesn't realise what a big help to your team that is? you talk like someone who's very new to this game. let me fill you in on something: throwing the word "whore" into a sentence doesn't automatically make it meaningful.

and "you wasn't smashing tanks up at all", i was shooting down apaches left and right... with a mammoth.

Quote:All im saying is you need to stop classing yourself as mr high almighty which you seem to do on a daily basis.

Im not furious with you Spooky, just think you're really hard to talk to and therefore makes you a prick

like i said, if you lose an argument, it can't be because you were wrong. it HAS to be something fishy about what the other person said. it's exactly the same as thinking anyone who beat you in renegade must be cheating. EXACTLY the same.

Heh, Im not freaking out at all, as I keep telling you. I don't know why you keep saying this, maybe its a sign of depression? Maybe you really need to believe this so you keep telling me it? I dont see where I was wrong. How can one be wrong when its just an opinion?

Im not disputing anything, I was never in .cc and I never plan on joining .cc or anything of the alike so I can't say anything about your leader shit skills and I don't im just restating what you have said about yourself. Noone has ever been better then you and nor will they, right?

Be honest now Spooky, have you ever thought to yourself that maybe YOU was wrong? Maybe what these other people are telling you are right? I assume you haven't. I don't think you can actually face that. I think it would tear you apart.

When you took charge of this comm war or whatever it was, did you speak to these players like you speak to people on here that dont agree with you or did you speak to them civilly? Im gonna go with the latter and that is why they won. Yes they were under your orders however you spoke to them decently.

I fail to see where I have been dishonest... I exaggerated the AS thing, I wasn't dishonest. I was merely pointing out that everyone makes mistakes so you wasn't best reneplayer that do some other .cc was.

Yeah you killed the hand right at the start of the game and if you dont recall I came very close to killing there ref had it not been for a bad (for me) spawn, I got busted as I was throwing my motes. I never once said that you weren't a help to our team so I don't know why you think I have? However as I recall it wasn't spooky vs 7 pub server players.

Again, what argument have I lost? The one in server owners? I stood back because you wasn't going to listen. Im not going to waste my time retyping thing I had already said. If you want to take that as 'Yay I was right AGAIN and add it to your RenForums HOF' then so be it.

I think someone is taking this internet business a little too seriously.
