Caveman wrote on Sat, 13 November 2010 11:43 Yeah I do think you was being a dick towards him, you're like it to everyone.

no, i don't talk to everyone the way i spoke to EWD, because very few people have done things as extraordinarily pathetic as the way EWD recently behaved.

Quote:Do tell me why wont you let this drop?

let what drop? you're the one came in and started flaming me, like you did in the server owner forum. then you got caught lying a whole bunch of times, but you're still desperately trying to act like i'm the bad guy here. jeez

Quote:You dont have to admit you was wrong or right. You can't, you need to be #1.  
at what, exactly?

Quote:You can try and be clever all you want with your wording, you know exactly what im talking about. You undermine people, I have a feeling you're a clever person in general however with it comes the attitude.

like i said, you still haven't demonstrated that there's anything wrong with what i've said, whereas  
**YOU HAVE BEEN CAUGHT LYING SEVERAL TIMES**

Quote:Ok, fine do it your way. You never said you was better at everything. However you'd like to think so.

making idiotic guesses about what i think is better than lying about what i said, so you've made a minor improvement there.

Quote:Why is it you're taking offense so much to what someone is saying about you on the internets. Why is it you can't just go.. You know what that Caveman is a lying dick and just leave it?

why are you still posting? nothing i've said has been refuted by anybody. quite a lot of what you've said has turned out to be nonsense and a lot more has turned out to be bald-faced lies. why are you still here?

Quote:No you didnt say anything negatively about my gameplay however you didnt say anything positive yet you think I should because you killed a few buildings. Praise and approval is a two way street you know.

your contribution to the team never really seemed to be the thing under debate.

Quote:Me saving e-face, do me a favor, I have nothing to save it from and you can quote me all you like. I stand by what I believe which is you're difficult to reason with and with that brings attitude people dont like. Im pretty sure im not the only one who has told you this before.  
you're certainly not the only person who's behaved so pathetically out of anger at losing an e-argument, as i've noted.

Quote:Im sure someone like Seye could do the gameplay balance just as fine as you. I see no reason why he wouldn't. Im sure a lot of people could. Do I really have to go around naming

names?

yes. there's the question i asked in the server owner forum: who understands this game's strategy and balance, in both small clanwar-style games and large publicserver-style games? stealtheye's grasp of clanwar-style games doesn't come close to mine, i can tell you that... with no undue disrespect to the guy.

Quote:I never said whoring was a bad thing, its just what you did for the most part of the game. do you want to explain exactly what "whoring" is? you seem to like the word, perhaps you can define it.

Quote:I just think you could have prehaps did something a little more productive like get an ion and ion the strip while I covered. Saved on unnecessary points for Nod. Surely you can see the logic in that? After all you're one of the best renegaders (There is that better?) we won by basekill, convincingly. why are you telling me that i should have done something differently, when we won so convincingly and when i was clearly the biggest contributor to the victory?

Quote:The only points you made in that thread was 0x90 couldn't be trusted, which I agreed with. You also said shit about EWD, I had no idea what the beef was between you both but all I wanted to point out that 0x90 would help TT whereas someone of your skills could easily be replaced. I also said I meant no offense by that, I was just stating fact.

facts that were plainly wrong. who has more experience in managing successful renegade ladders? nobody, not even westwood (in fact their ladders were positively crap). your only response to this was that you personally don't care about the ladder. fine, but that doesn't go anywhere near the point that the game really should have one.

secondly, you still haven't shown who'd be as good at the balance consultation job. "easily replaced"? the only person i can think of who would come anywhere near my competence for the job is whiskey.

as for "0x90 would help TT", maybe if he wasn't 0x90.

Quote:Word this however you want, bottom line - Im tired of these long ass debates, I actually have things to do.

i doubt that, cos you've spent an awful lot of time trying to win this e-debate. it obviously means a lot to you, given the level of dishonesty to which you've stooped.

Quote:If you gonna reply to this with a long ass quote and whatnot, save your time - I can't be bothered, really, in one ear out the other.

You was right spoony, I was wrong, im lier etc.. etc..

it's a shame you're probably sarcastic. anyone reading this thread can see you've been conclusively caught lying several times.
