if anyone thinks frozen's worth mentioning, he totally humiliated himself in the lobbywar yesterday... after losing Islands, he said "the only reason you won was because wiener was sucking spoonys dick to defend all game"

well, we had one dedicated defender watching the tunnels while everyone else focused on tanks and techs in the field, which got us the win. maybe frozen thinks the fact i know i can trust wiener to defend or tech if necessary is an insult; when i played comm matches with clanwars players there aren't many of them i can trust with that. i certainly wouldn't have asked frozen to defend, i didn't think he was good enough before the series and i certainly don't think he's good enough now
