LMFAO this is about as good as wikileaks...

Once EA finds out this has happened, I can't see them EVER approving it as an official patch anymore. How can they trust TT to do anything official for them after this?

I just downloaded the file... its loaded with conversations between Troop, Jonwil, EWD, and others... I've only read like a couple and already there is tons of info in there...

PS, Can I install Scripts 4.0 when I get home? Will it work?
