If the result is: This game is fucked, then I change of engine for Reborn. All the graphical stuff is done for now and I know a mod that will be ready for our stuff (RenX).

Troop shouldn't have had the code. It was due to Troop's asshattery and Jonwil's error of leaving a previous leak on an open webdir, that Troop could get the code. Yes errors have been made, but banning troop is not one of them.

Oh and please move your mod over to RenX, saves JW a lot of time.

Troop had the code long before this. Why give code out to beta testers.
