Depends if he didn't want to be able to lift it >.<

This is because religion is not supposed to interfere with government regulations. Freedom isn't free, if you want to live here, there are somethings that you have to be subjected to. Being gay can just be used as a loophole for people to avoid being drafted.

Sex change being the next loophole...

Best Case Scenario: Gays become more accepted in society.

Worst Case: Friendly Fire rates go up.
