Hmm that's pretty weird. I can log in to the control panel using my Renegade account + pass or any of my other nicks (also Omar007 but other game ) + XWIS pass (which is displayed in the control panel..)

**Images** 

You can always try the 'Reset Password' on the first (login) screen but I'm not sure if that works (I never used that but I didn't need to because I remembered 1 of my nicks passes, which I used to login to the CP). You need either the valid nick or the email it's registered to. If you use the nickname, you still need to access the associated email.
