---

I started up a channel for clans - its an MIRC channel where anyone who is in a clan can sit and chat or idle, doesn't matter.

They can also setup matches, look for servers, ask to join a clan, get information, etc. I was hoping you could put this either as a link onto your site or in your news.

Stats:

It is in a chatroom on IRC:

Server: NetFire.TX.US.GamesNET.net

Channel: #clancenter

I hope some of you guys will show up I believe this to be a good idea.

--

Thanks,

zerk
