I'm pretty happy with my OCZ Vertex 96GB and 2 OCZ Vertex 2 80GB's. I do have to mention though that I only got the V2's after I RMA'ed 4 Vertex 60GB's. I'm not sure, but I got the feeling that RAID0 and about 100 GB in use 24/7 is not a good usage scenario for the Vertex 1's. The Vertex 2's I don't know yet, as I only had those for a couple of weeks and my PSU quit about 1,5 week ago. I've had Vertexes since July 2009, so go figure...
