Dover wrote on Tue, 08 March 2011 08:17 I've yet to hear a plausible alternative. If species don't evolve from other species, that would mean every species that exists now has always existed for Earth's history. Can you imagine puppy dogs dodging volcanic rock in the time of the primordial soup? I wonder how sheep and cows survived being hunted by dinosaurs? Sounds more than a little silly.

Quote:Children play and dinosaurs roam near Eden's Rivers.

I hope the dinosaurs weren't carnivorous.
