Xbox costs 200 bucks and plays every game out on it .. a nice PC costs 1000 bucks and must be upgraded with every new game that comes out .. plus with an xbox I can play with real life friends, though with some of you guys I'm sure that's not much of a concern.

Real life friends! Oh boy! What are they like? Please, do tell. When you're sitting next to your real life buddy, is it just like the movies? Two kindred spirits accompanied by the faint harmonic tapping of controllers that echo like song whilst being enthralled on an inferior gaming platform. I may not have an xbox, and I may not have real life buddies, but I'll tell you one thing - I can dream sir; I can dream.

Apologies, boredom gets the best of me.
