EvilWhiteDragon wrote on Fri, 25 March 2011 10:40 Unless BrenBot is acting up again, there surely is a bot active. Currently @ internship, so I cannot fix it right now. Perhaps StealthEye has time, or otherwise I'll look into it later.

Checked it out. It appears that there isn't any connection by which BrenBot and the server are communicating with each other. I put the coders on this, so they can figure out WHY it's happening. This is probably the reason for it not showing up on GSA or RR server thingy.
