3v3 volcano game against trojan, my team is nod, I think it ends up with something like us having a refinery vs their wf and 2 meds and an apc. all 3 of us rush with engies, and one of the meds goes tunnel side to finish off the ref. The two other meds are guarding the doors... somehow, we all manage to get inside the building and kill it.

I wish I actually remembered more of that story, it was actually pretty awesome.
