Garble is a mystery: Is he a foreigner with only tenuous grasp of English? Is he on drugs? Does he suffer a serious mental debility? Is he typing wearing boxing gloves? Garble's rampant typos, malapropisms and execrable grammar can't be blamed solely on poor typing skills. Garble is all the more puzzling because if one manages to hack his way through the tangled muddle of his messages a discernable idea will often emerge. For example, in a forum discussion about a painting he might say, "Sorry the picchr the har is wrog. The culir. I liike the lips bot teh Paintng is sucs". When someone refers to his random capitalization Garble might say something like, "oPS i HITTED THE CAPDLOCK". Garble drives Grammarian and Nitpick absolutely nuts, but he disdains all efforts at correction, and if complaints persist he will indignantly sign exit saying, "yuor forum si stupef. bYE!" HINT: Garble may be Net Rat.  
i love it
