Tunaman wrote on Thu, 01 September 2011 08:47I swear the old ones had the solution explorer, etc, too anyways

Yeah, they do, I have 2005, 2008 and 2010 installed here and they all have it... just VS2010 makes them more prominent in the default layout configuration. I personally find (some of) them extremely useful, I manage all my project files from the solution explorer.

Class view on the other hand.. not overly useful for my since our files are named after the classes they contain anyway, but for languages like c# where classes tend to be used more extensively for smaller things it might come in handy I guess...
