Aircraftkiller wrote on Fri, 09 September 2011 11:53It's difficult to see infantry moving through the trees and camera-parallel bushes. That provides all they cover they need. They also have rocks in the river, the little cave-like areas next to the overland road, and the ore mine system which they can use.

Sounds like that'd do the trick, but testing is always the best answer, it's amazing how many things people can find to exploit when they want to be on top of a score list.
