You really think Hate cheated? You do realize that he was a 4.0 beta tester?

He reported that TT stopped working for him, while he was still beta-testing. So who knows.

Then as he knew that TT was approaching open beta - he disappeared from rene. Coincidence? We'll see.

A (well) known cheater speculating on others cheating... LOL.

You should probably go back to that hole you crawled into when you finally got caught... this time I am sure most of us would appreciate it if you'd stay there. Kindly, fuck off.

And, I don't know if HaTe actually cheated or not... I do know he seemed to pick a good name for himself, he was an angry person most of the time.
