but maybe I did not want it fixed. as I was allowed to play back in some servers but the new maps they use are not for me anyone who ever play in renegade community server will know I hated the fan maps and so did a lot of others and in the end that is what drove players away and the server was no more .

if these maps and the fact you can not use skins -huds or textures is ok for you then have fun hope you enjoy the game but for me it is no fun .
