Wanted a place to post those cheater's names?

A place to show others what cheats we are coming up against?

Want to see who else to ban from our servers?

Look no further! www.EA-Cheaters.co.uk is a newly created forum- based website, allowing any Renegade or Generals players to inform fellow gamers of hairy hackers and childish cheaters.

CnCAndyXP invites you all to fill out a 10 second registration form, and have access to many of the cheaters we already have encountered. Friendly clans and other sites are able to share and show information.

Maybe if we all work together, we will finally bring an end to all these cheats.

Naming the cheaters is a start. So join today!
