I decided to make a new Renegade map. I just started this morning so it might be a little while before I show more images. I will say that it's a much more 'normal' map than I usually create.

..So it isn't unnecessarily large like Epocilation and it wont feature any unique catches like I tend to try making with most of my maps. It's a straight forward Renegade map in scale with the other stock maps in Renegade.

Now I wouldn't have created this thread to just tell people I'm making the map. I'd of preferred to just wait til I had some images to show off. But the reason I made the thread is to discuss the name of the map.

Is the name "Drift" used for another Renegade map? I like the name but I don't want to use it if there is already a C&C_Drift. Does anyone know if it is available?
